

Improving the Outcomes to Education for the Poor in Ghana

A Thematic Bibliography¹

Compiled by: Dr Leslie Casely-Hayford with Gwendolyn Quaye

Associates for Change (AfC)

July 26, 2006

¹ This thematic bibliography is focussed on Ghana and Sub Saharan Africa.

Introduction

The following bibliography is a compilation of some of the most important work identified for the RECOUP project. The bibliography is by no means exhaustive and does not include the more detailed work which will be completed under each thematic literature review and annotated bibliography.

The bibliography attempts to provide some of the background literature and helps the study teams identify other important work on the education system in Ghana over the last 30 years from a broader perspective. We hope this will assist the team members across the countries and within each thematic area review in one document some of the literature available.

The bibliography is broken down into the following sections:

- General Education
- Gender and Education
- Social Equity, and Social Mobility
- Health, Fertility and HIV/AIDS
- Disability
- Citizenship and Democracy
- Market and Economic
- Sector Wide Reform, Aid and Partnerships

1.0 General Education
